# TECH SHEETS
fully compliant • any trait, treatment, crop

When you need to give your customers extensive information on a single product, tech sheets are the way to go. Not only can we design a branded and concise sheet, we can use our internal software to link your spreadsheet data with the design, ensuring both accuracy and compliance. PDF files are sent to you and are great for display on your website.

BENEFITS OF TECH SHEETS

- Ideal for dealer product binders, company websites, client meetings
- Receive printed pages or PDFs
- PDF form fields available for custom text or note areas
- We handle all compliance reviews/approvals

YOUR DATA YOUR WAY

Pricing will vary based on how much of your content can be incorporated into our design software – that is, how much can be automated versus done by hand. The features you want will determine which tier your tech sheet falls into.
